Bad Debts Step by Step: % of Credit Sales Method

Sneaker Supply Co. (a made-up company) sells shoes to stores. It started business on **January 1**, so A/R and ADA begin at $0. Based on experience, it expects **2% of each month's credit sales** to be uncollectible, and it records BDE at the end of each month.

January transactions

- **Jan 5:** Sold shoes for **$4,000 cash**.
- **Jan 10:** Sold shoes to Store A **on credit, $6,000**.
- **Jan 20:** Sold shoes to Store B **on credit, $4,000**.
- **Jan 31:** Record bad debt expense: 2% of January's credit sales.

1. Journal entries for January transactions

Use (+A), (−A), (+R), (+E), (+xA), (−xA).
